Project Description

Innovation & Creativity (30%) - Criteria used to measure the overall innovation of the deal/project or transaction in question and the creativity shown to implement or structure the deal or project.

Please describe how the transaction considers the following:

Structure of the deal: Does the investment showcase innovation in financing structure (source of equity/debt), does it make use of creative ownership structure such as JV's or combination of uncommon parties (government, foreign, or retail investment)

Complexity: Complexity of investment (single asset vs. portfolio purchase, co-ownership with tenants, plans for expansion/change-of-use, scarcity of product, transaction timing considerations); does it showcase creativity in leveraging relationships to identify the opportunity/investment partners

Market / Community impact (30%) - Criteria to be used to measure the deal's impact on the market.

Please describe how the transaction considers the following:

Price: Purchase price or cap rate for the type of asset/portfolio relative to the market – does it reaffirm market value or set a new benchmark in current market conditions.

Publicity: Degree of publicity of the project in the news/community

Size / scale / geography: Size or scale of the purchase (# of properties or size of ownership stake acquired) in the context of the local market. Does the transaction / investment encourage future deal flow in a certain market/ asset class?

Investors / partnerships: Does the deal encourage future investment from specific investor and partnership types?

Value to the Investor (40%) - Criteria is used to measure the value of the investment to the investor.

Please describe how the transaction considers the following:

Alignment with Investor Strategy: Is the investment representative of an extension or shift in strategy? Does the investment help the investor achieve its short / long term goals with respect to their strategy?

Investment quality: Overall quality of the assets/portfolio acquired relative to other assets available in the market and the existing asset base of the investor. Is the asset purchased for future expansions / change-of-use that will drive future investment value and community impact?

Transaction Impact: Does the investment align with the investors sustainability initiatives? Does the investment provide a clear social benefit to the surrounding community? Is the investment representative of forward thinking with respect to community impact on behalf of the investor. Does the investment stand to hold others accountable to future community impacts in future investments?
